

SlingStudio™

NEW! Coach and Referee Review

SlingStudio™ and sports go hand-in-hand with **wireless, multi-camera** features!

SlingStudio is the most affordable solution available today, offering unmatched value for a professional quality video production platform.

Multi-camera

Wirelessly connect a combination of 10 professional cameras, smartphones, and even drones to get the perfect angles in HD.

Livestreaming

With the touch of a button, stream your live-switched, multi-camera sporting event to Facebook, YouTube, Vimeo, and virtually any service.

Wireless

Using the SlingStudio CameraLink, send video to the SlingStudio Hub from your camera up to 300 feet away.

Portable

SlingStudio is a production truck in a backpack. At just under 3 pounds, SlingStudio is battery-operated, requires no cables, and can be used almost anywhere.

Recording

Get up to 7 recordings with each production, including individual feeds, a quad view, line-in audio and create a highlight video. Automatically time-align your files and export your footage from a single storage device.

NEW!

Coach and Referee Review

With the touch of a button on an iPad or Mac, review multi-angle video in slow-motion, frame-by-frame, while your streaming and recording continues.

Take Your Game to the Next Level

Sports Applications

Livestreaming & Recording

- Livestream to services like YouTube, Facebook, Vimeo, or virtually any other platform using custom RTMP.
- Record and stream individual or quad-view video.
- Slow-motion Instant Replay.
- Add custom scoreboard, text, graphics, and pre-recorded video.

Coaching & Referee Review

- Rewind up to 10 minutes while your stream or recording continues uninterrupted.
- Review multi-angle video in slow-motion.
- Zoom in on a single angle or watch quad-view.
- Frame-by-frame scrubbing.

Social Media & Fan Engagement

- Livestream and record pre/post-game interviews, behind-the-scenes, etc.
- Add Chroma-key video background for sports shows.
- Create highlight videos with tagging for social media.
