

# SlingStudio™

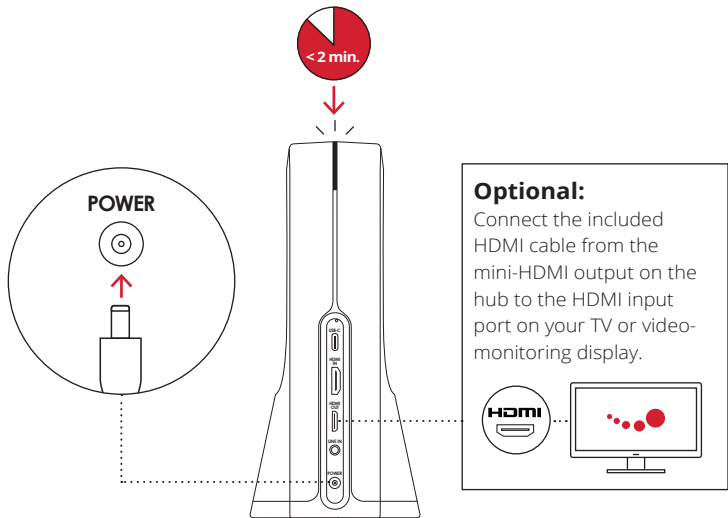

## Quick Start Guide

[MySlingStudio.com](http://MySlingStudio.com)

**1**

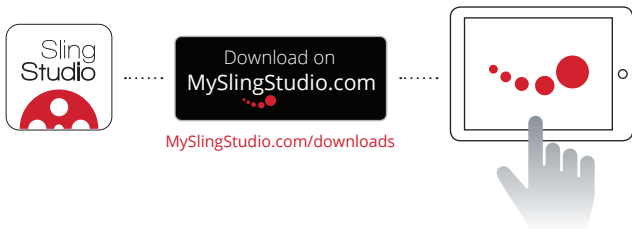

## Connect the Power Supply

Connect the power supply to the SlingStudio™ Hub. The blue LED band blinks for up to two minutes while it is starting up. Wait until it stops blinking and glows steadily before proceeding.

**2**

## Get the App

Download the SlingStudio Console app on your iPad or Mac, then follow the on-screen instructions to set it up.

## 3

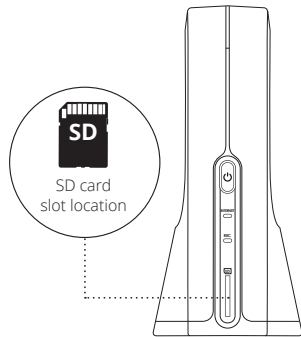

## Set Up Your Cameras

You can connect up to 10 camera sources simultaneously and actively monitor, switch and record four of them. Here are some examples:

- *Camera, camcorder or drone via HDMI* – Connect the camera's HDMI output to the standard HDMI input of the SlingStudio Hub.
- *iPhone or Android smartphone* – Download the SlingStudio Capture app on your smartphone and use it to connect wirelessly to SlingStudio.
- *Camera, camcorder or drone via Wi-Fi* – Connect an HDMI camera or camcorder to SlingStudio via Wi-Fi by using the SlingStudio CameraLink (sold separately).

### Please note:

- For recording, SlingStudio requires a UHS Speed Class 3 SD card, a USB-C external hard drive (EHD) or solid-state drive (SSD), or a USB 3.0 EHD or SSD connected to the SlingStudio USB-C Expander (sold separately). Visit [MySlingStudio.com/compatibility](https://myslingstudio.com/compatibility) to see if your device is supported.
- When using the SlingStudio Hub without a power cord, the SlingStudio Battery (sold separately) is required.

## IMPORTANT SAFETY INSTRUCTIONS

Read and understand all operating instructions prior to use. Keep this document for future reference.

Do not immerse the product in water or expose it to rain, moisture, dripping, or splashing.

Only connect the original power adapter. Other power adapters may damage the circuitry and cause a fire risk.

The power adapter gets warm when in use. Place it in an open, well-ventilated area and do not cover it.

The power adapter must only be used indoors. To use SlingStudio outdoors, power it from the dedicated rechargeable SlingStudio Battery (sold separately).

Do not use other sources of battery power. Only use the designated SlingStudio Battery that is specifically for use with SlingStudio.

Install and operate SlingStudio with a minimum separation distance of 20cm between it and all persons to maintain electromagnetic field exposure within permitted limits.

Keep the product, plastic packaging, and small parts away from babies and children.
